

Tahoma 31 is #1 for low water use, traffic tolerance, shade, and cold tolerance winter survivability.

Tahoma 31 bermudagrass was developed by leading turf scientists at Oklahoma State University. It derives its name from the Native American word, Tahoma, which means frozen in water. It shows exceptional winter hardiness and tested up to 75% more cold tolerant than other bermudagrass varieties, and was bred with improved drought resistance in mind. This special grass has deep roots, and depends on a reduced amount of water to maintain healthy growth. With the **LOW WATER USE**, resistance to winterkill, the additional characteristics of improved wear tolerance, aversion to drought, tolerance of short mowing heights, salt tolerance, and low vertical growth make it an ideal choice for sports turf, golf courses, and landscape applications.

Features and Benefits

Color

- Dark green--darker than Midiron or Tifway 419

Texture

- Fine

Performance

- Establishes quickly
- Drought resistant
- One of the best bermudas for early spring green up
- USGA/NTEP studies show it performs better than older bermudas
- Lowest winterkill rate of all bermudagrasses tested in NTEP
- Less mowing (lower vertical growth rate than all of the other industry standards)
- Low mowing height (can excel at .125")
- Heals quickly from damage and sports related wear

Shade Tolerance

- In up to 63% shade, ranked #1 amongst other popular bermudas

Climate

- USDA zones 7-11

Tahoma 31 at a glance

- Low water user
- Salt tolerant
- Adaptable to many different soils and climates
- Extremely aggressive and strong growth habit

Life is short. Sod it!

How to Specify Tahoma 31

Available as sod and stolons. Sod options are regular or big roll.

Options

- Regular sod comes in 16" x 72" 8 sq. ft. and 2' x 5' 10 sq. ft. rolls
- Big roll sod is 42" wide and various lengths allowing for large areas to be sodded quickly and efficiently. Great for parks, cemeteries, and large commercial lawns

West Coast Turf—A Full Service Company

We can install your new sod!

For larger projects, our skilled crews will use specialized high-tech equipment to install your new grass quickly and dependably. You can count on our experts to get it right the first time.

We can grow your special mix or blend!

Need a specific grass? Our knowledgeable crews can grow sod to meet your specific requirements.

To order or for more information

Tahoma 31 and other fine natural grasses are available directly through West Coast Turf with several Western locations to serve you: Palm Desert, CA; San Marcos, CA; Winchester, CA; Livingston, CA; Patterson, CA; and Scottsdale, AZ.

Other West Coast Turf varieties include dwarf tall fescue, St. Augustine, zoysiagrass, paspalum, kikuyugrass, bluegrass, ryegrass, bentgrass, several bermudas, and Kurapia.

Installation and maintenance guides are available.
