

# TIFTUF

CERTIFIED BERMUDAGRASS

## The Drought Tolerant Bermudagrass

Long dry summers can be brutal on turf—even more so on your water bill. TifTuf™ Bermudagrass was developed with this challenge in mind. This fine-textured, green leaf beauty uses 38% less water than similar grass cultivars... and still looks great. And just as important, TifTuf™ Bermudagrass has a high shade tolerance. When cooler autumn temperatures arrive, it stays greener further into the season. It all makes you wonder how something so tough and resilient can be so gorgeous?

## Features and Benefits

### Color

- Beautiful dark green

### Texture

- Fine

### Performance

- Highly drought tolerant
- Extremely tough
- Aggressive growth
- Excellent late season color retention and early spring green-up
- Fast recovery from wear/tear or drought
- High turf density
- Superior fall color
- Retains more moisture
- Has 90% survivability rate in temperatures as low as -6F
- Retains 95% more green leaf tissue in drought stress as compared to Tifway 419
- After 19 drought stress trials, TifTuf™ was designated the research standard by which all drought tolerance will be determined

### Climate

- Thrives in warm to hot climates USDA zones 7-11

### Shade Tolerance

- Prefers full sun, has better shade performance than most bermudas

### Maintenance

- Easy to maintain
- Can be mowed with rotary or reel mower
- Fall overseeding required for winter color

### Mowing

- ½-2"

WEST COAST  
TURF

*Life is short. Sod it!*

## How to Specify TifTuf

Available as sod and stolons. Sod options are regular or big roll.

## Options

- Regular sod comes in 16" x 72" 8 sq. ft. and 2' x 5' 10 sq. ft. rolls
- Big roll sod is 42" wide and various lengths allowing for large areas to be sodded quickly and efficiently. Great for parks, cemeteries, and large commercial lawns
